

National Council on Workforce Education Conference 2009

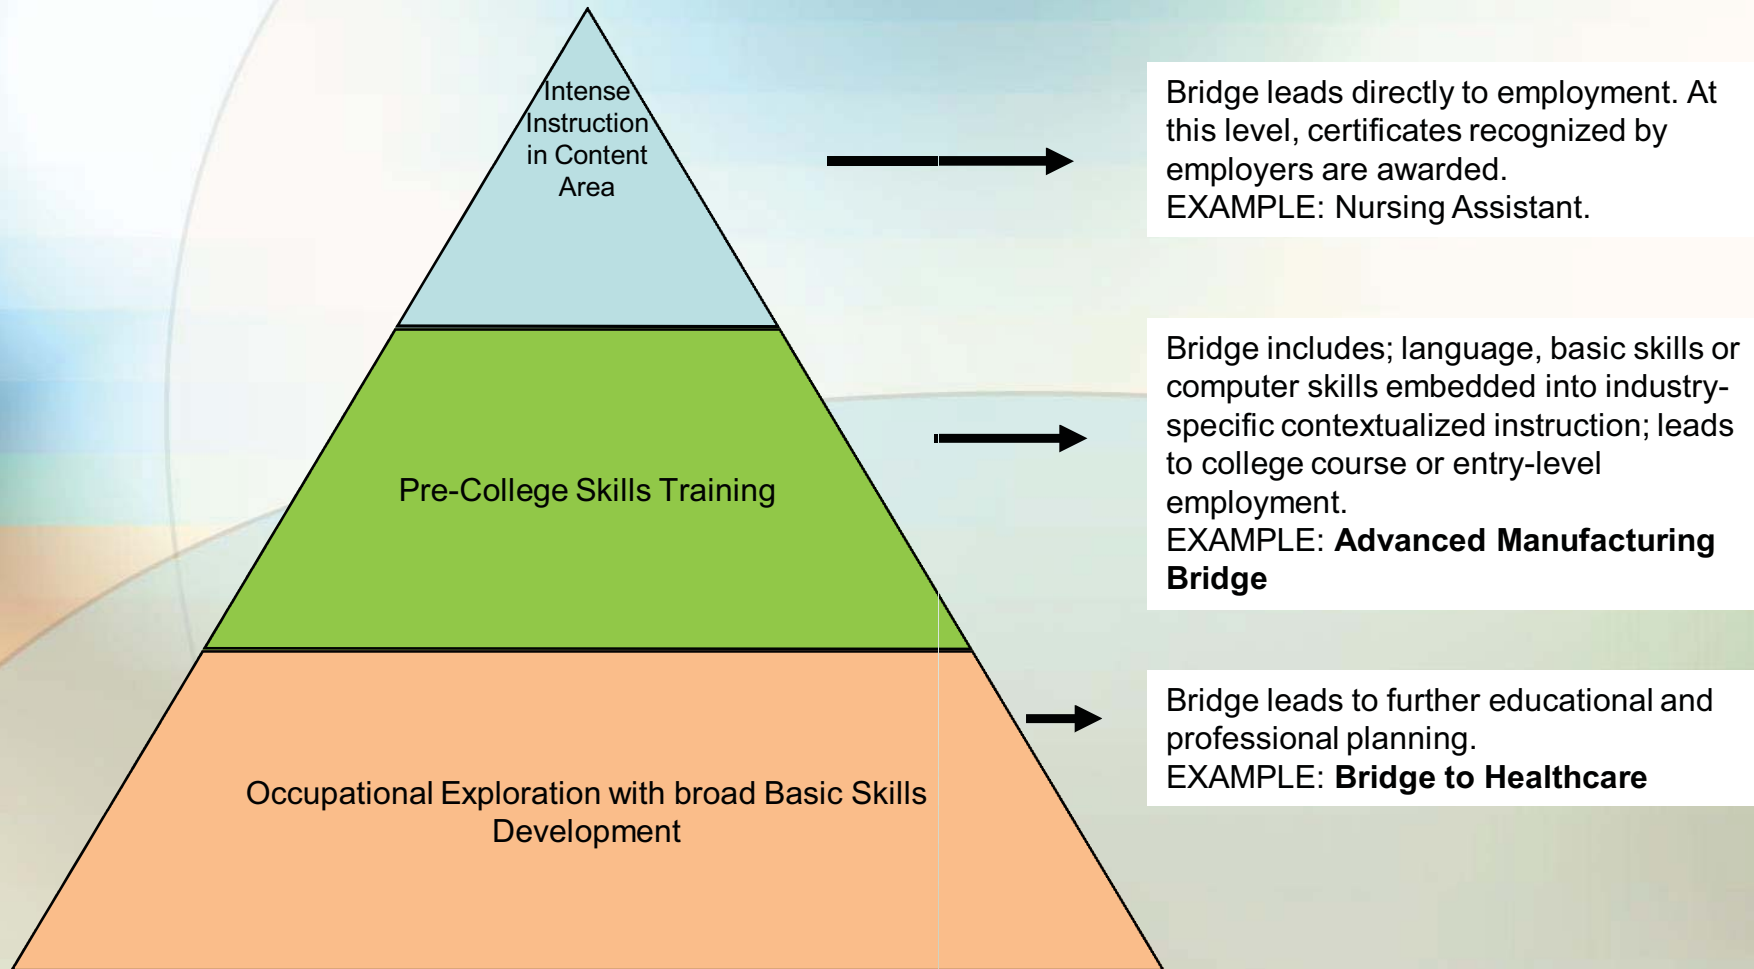

Bridges: They're Not Just for Engineers

Presented by: Amy Youngflesh
Jackie Sandquist
Andrew Roessler

Objectives for Today

- 1) Bridges – Wide range of bridge programs
- 2) Partnerships with industry, workforce development and academic departments.
- 3) Lessons Learned

Our Definition of a Bridge

Advanced Manufacturing Skills Training

- **Goal of Bridge Program in Manufacturing**
- **Why it works**
- **Partnerships involved**
- **Lessons Learned**

Bridge to Healthcare Class

- **Goal of Bridge Program in Healthcare**
- **Why it works**
- **Partnerships involved**
- **Lessons Learned**

Using Roadmaps as a Tool

Why Roadmaps...

- Planning Tool
- Advising Tool

Your turn

- **Review Manufacturing Roadmap**
- **In your blank roadmap:**
 - Identify partnerships that are necessary
 - Identify student population
 - Occupations and/or employers which could link to the bridge
 - What are you bridging to (CTE Programs, certifications/credentials, employers, etc)?

Identifying Next Steps

On your sticky notes complete the following statements:

- 1) I hope our bridge program will:
- 2) The greatest concern(s) I have about starting a bridge program is:
- 3) In order for the bridge program to be successful I/we need to:
